

1. Cut out the circle above. Use it as a pattern to trace a circle on colored paper.
2. Cut out the circle of colored paper. Cut a slit out of the circle to show one line of text at a time, but don't cut through the center. (Or, instead of the colored circle, cut a pointer, or a different colored pointer for each child, and attach at the center of the circle with a brad)
3. With the colored paper circle on top, and the circle with text on the bottom, line them up, and push a brad through the center so that the top circle can rotate around the bottom circle.
4. On the Sabbath, turn the wheel to one of the activity ideas. Give it at least 15 minutes before turning to the next activity.
