**1 One triangle
does a back flip:**

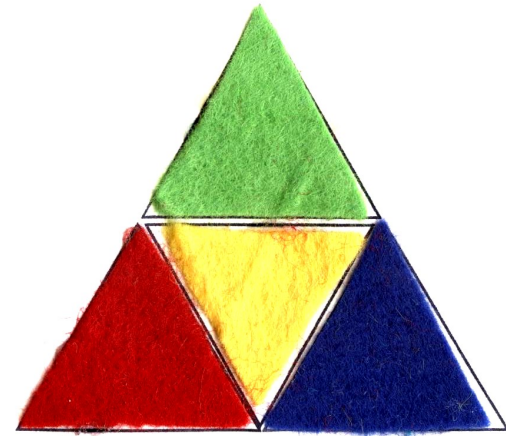

**2 Two triangles
can do tricks:**

3 Three triangles
fit together:

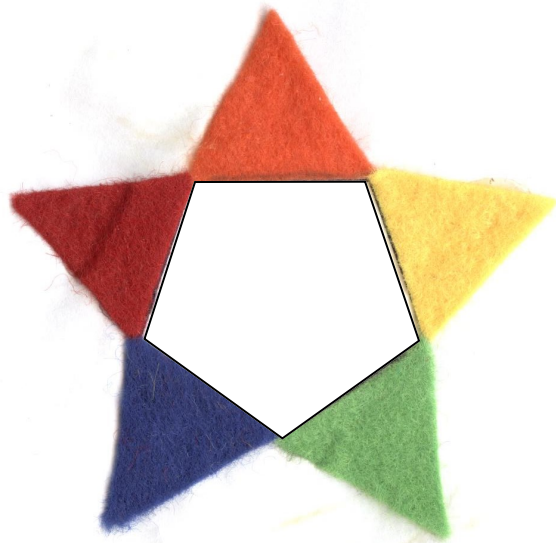

4 Four triangles
can do better:

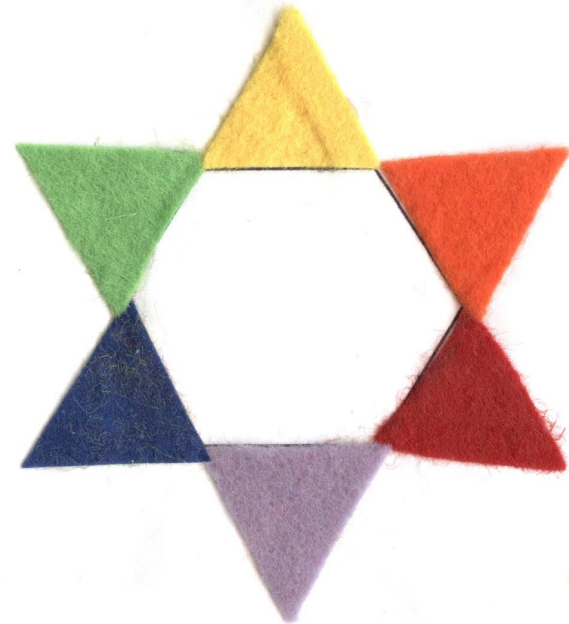

**(together they make a big
triangle)**

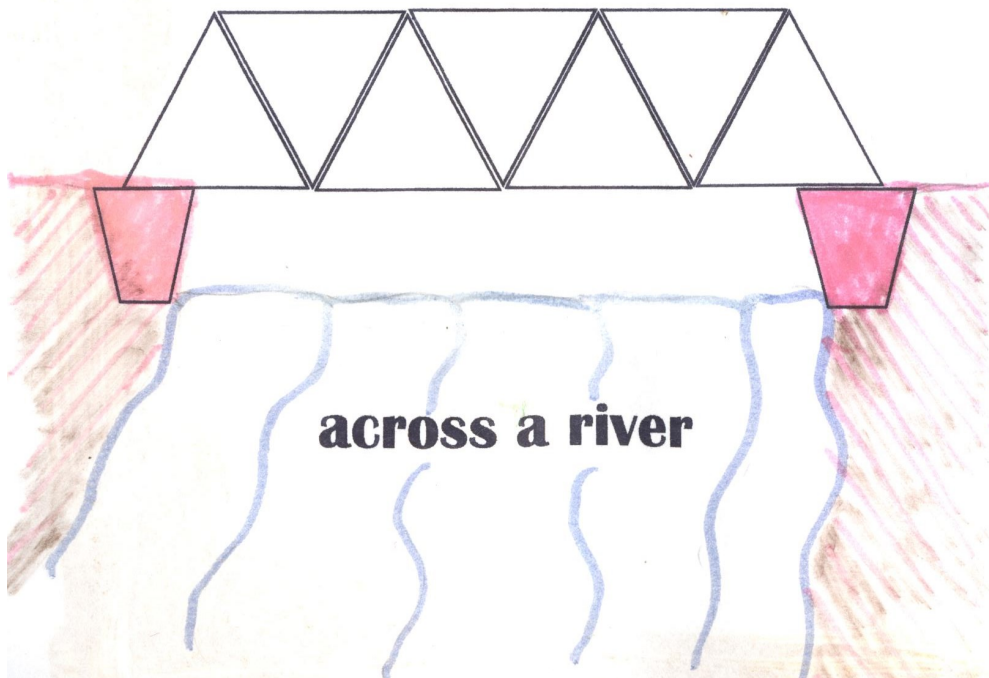

5 Five triangles
gather 'round to
make a star:

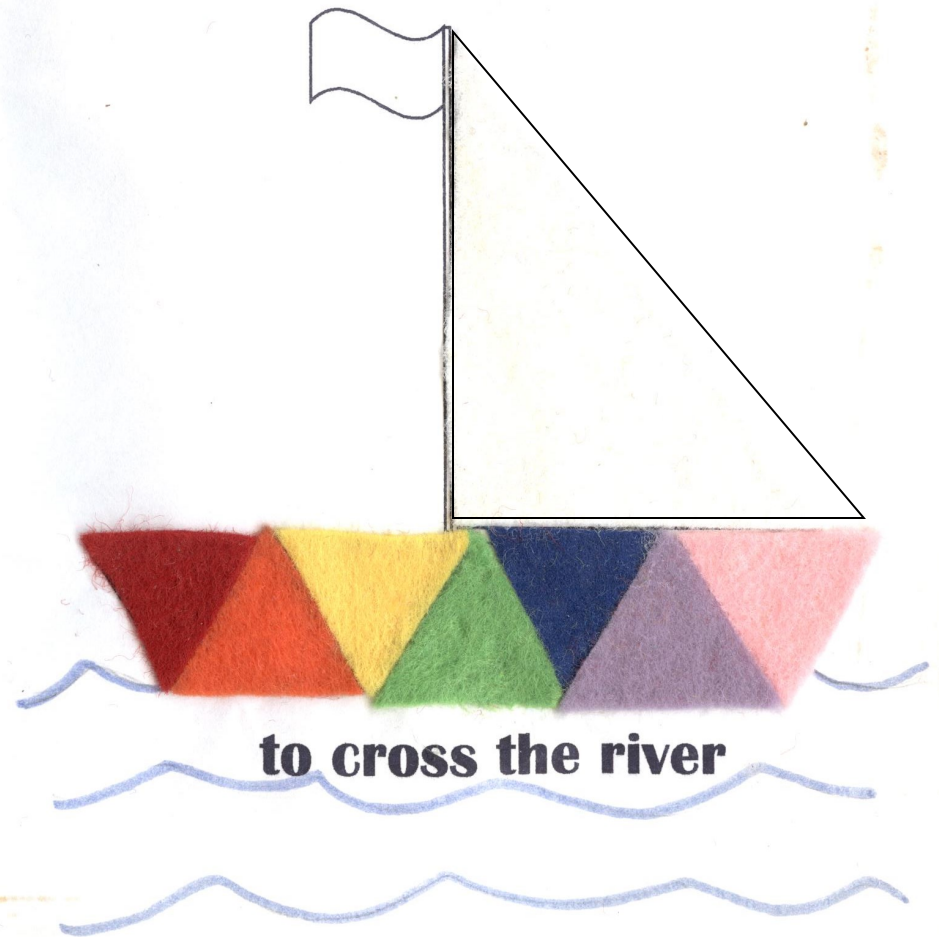

6 Six triangles
can do better by
far:

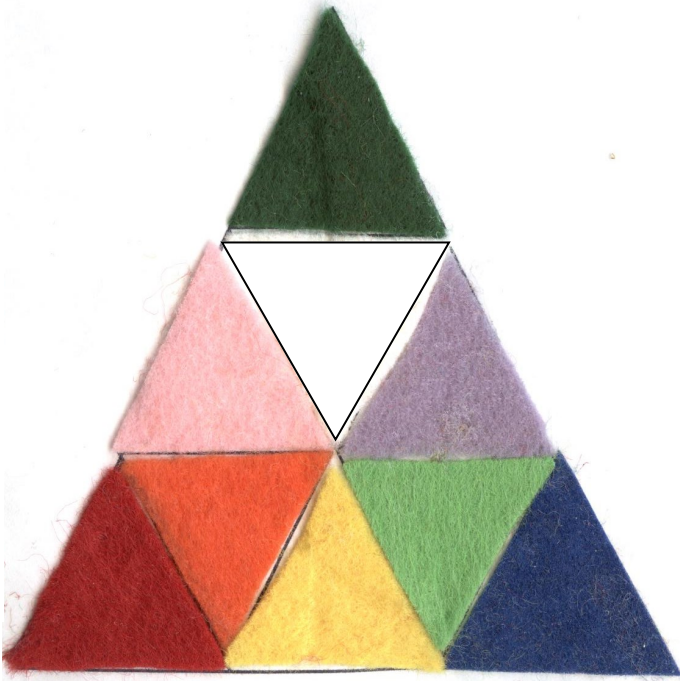

7 Seven triangles
could be a bridge:

8 Eight triangles
could be a boat:

9 Nine triangles
stack up high:

10 Ten triangles
can be a kite to fly:
